Get the insider's garden knowledge at [www.donnabalzer.com](http://www.donnabalzer.com) where greenhouse and outdoor gardening tips and tricks are shared.

It's almost time for keen gardeners to start ordering seed and Donna's new page includes loads of helpful garden tips and blog posts . Simply subscribe online at [www.donnabalzer.com](http://www.donnabalzer.com) to receive **8 Organic Tips** plus a **monthly newsletter**.

*"I help you grow where you are planted. No seed left behind, no soil unturned,"* says Balzer, who is especially interested in food gardening and learning to adopt new ideas and gardens. *"If you change houses or cities or even provinces, the soils will differ, the zones will vary, and it will take a while to get used to gardening again. Simply moving to a warmer zone doesn't mean you'll grow better food,"* says Balzer, who slowly moved from Alberta to Vancouver Island and had some crash test experiences with her new garden.

Donna Balzer is an award-winning media personality and garden consultant with a personal passion for food gardening and ornamental horticulture in northern regions. **And she is available for interviews!**

Horticulturist, speaker, and author, Balzer hosted 3 seasons of the Internationally broadcast **BUGS & BLOOMS** on HGTV. Her 2011 book **NO GUFF VEGETABLE GARDENING** was an instant best seller and her newest book **THREE YEAR GARDENER'S GRATITUDE JOURNAL: PART DIARY, PART PERSONAL GROWING GUIDE** launches January 2018.
